

Traders and Raiders

Anglo-Saxons and Vikings

Books: The Iron Man by Ted Hughes, The Saga of Erik the Viking by Terry Deary, Beowulf by Michael Morpurgo

Miss Loomes will teach Gymnastics and Tennis this term

Art and DT

We will explore Materials and Textiles. We will be making a bag and exploring how Vikings used dye to colour cloth. Anglo-Saxon patterns

MFL

Revise numbers, days, months. Quel temps fait-il? Les nombres 10-20

Science

Forces and Magnets

This 'Forces and Magnets' unit will teach your class about forces, friction and magnetic attraction. They will learn about forces in the context of pushing and pulling, and will identify different actions as pushes or pulls. The children will work scientifically and collaboratively to investigate friction, by exploring the movement of a toy car over different surfaces. They will work in a hands-on way to identify magnetic materials. Furthermore, they will investigate the strength of different types of magnet. The children will have chance to explore the way magnetic poles can attract and repel in an exciting activity, making their own compass and using it to find hidden items. The children will use their understanding of magnetic attraction to design and create their own magnetic game. They will develop their scientific enquiry skills, making observations, predictions and conclusions
